

Vanair Manufacturing, Inc. Appoints Two New Directors

New Buffalo, Michigan - Vanair Manufacturing, Inc. (New Buffalo, MI) appointed John D. Hooper as Director of Engineering and Sara Tilden as Director of Marketing in March of 2005.

Hooper 's responsibilities include Quality Control, R& D, Applications Engineering, Engineering Economic Analysis and the management of all engineering projects. Before joining Vanair, Hooper was a senior Engineer at Sullair (Michigan City, IN) and most recently a Process Engineer at Eli Lilly in Indianapolis. He holds bachelor's degrees in Mechanical Engineering and Computer Information Systems, as well as a Master of Business Administration.

Tilden's responsibility include marketing and promotion of all Vanair product lines to distributors, OEM's and end users, as well as identifying and establishing new customers, markets and opportunities. Tilden previously worked as Director of Sales for AC Incorporated, an industrial advertising agency (Valparaiso, IN). She holds a bachelor's degree in Communications and Marketing from Valparaiso University.
