

FOR IMMEDIATE RELEASE:

Introducing the AIR N ARC® 300

The Lightest, Most Compact Welder | Generator | Air Compressor | Battery Booster ALL-IN-ONE Power System® on the Market

The Air N Arc™ ALL-IN-ONE Power System® offers a 40 cfm rotary screw compressor combined with a 7kW Generator, 300 amp Welder and Battery Booster in one integral compact footprint. With its small dimensions the unit can be mounted on a side-pack or behind the cab making it the most versatile unit on the market.

The Air N Arc 300 frees up over 50% more space on your vehicle for equipment and supplies as compared to having a separate engine driven air compressor and welder and eliminates up to 35% of the payload weight of individual components.

Equipped with a true two generator system, the Air N ARC 300 delivers safe multi-function of electrical tools, plus all the benefits of a high frequency welder with excellent weld characteristics.

The Air N Arc 300 was designed to mount into a standard service bodies without body modifications for easy access to controls. The control panel can be remotely mounted in a side compartment for the ultimate in user convenience and productivity. Designed for maximum fuel efficiency, the AIR N ARC® 300 is now available in both gas and diesel versions.

Vanair is recognized as the world's largest manufacturer of Vehicle-Mounted Air Compressors, Generators, ALL-IN-ONE Power Systems®, Welders, and Battery Boosters.
