AIR N ARC® 300H

NEW
Hydraulically
Driven

The Lightest, Most Compact Rotary Screw ALL-IN-ONE Power System® on the Market

Vanair continues to expand its product line with the introduction of the Air N Arc® 300H. The latest Air N Arc® All-In-One Power System® features the innovation of being hydraulically driven, while still offering all the advantages of the Air N Arc® 300 engine drive systems including a 40 cfm rotary screw for on-demand air, a 300 amp welder, 300 amp 12V charge and 12V/24V boost, and a 7kW generator. Designed as a true two generator system, the Air N Arc® 300H allows simultaneous dual functionality such as welding and generator for lights for nighttime service. The system offers a small footprint for side pack or behind-the-cab mounting and is ideal for trucks with hydraulics already installed, such as crane trucks.

SPECIFICATIONS

Drive System	Open hydraulic
Hydraulic Requirements	19 gpm @ 2800 psi
Compressor Type	Rotary screw
Generator Wattage	7,000 continuous watts of pure sine power, 120V/240V
Welder Amperage	300 amps high frequency CC/DC, CV/DC at 100% duty cycle
Battery Charger	300 amps 12V charge and 12V/24V boost
Max Pressure (psi)	175
CFM Rating	40 cfm
Dry Weight (lbs.)	595
Dimensions (in.)	21W x 47L x 31H

Product improvement is a continuing goal. Design and specifications are subject to change without notice or obligations.
